

TSE / BSE – freedom

according to guideline EMA/410/01
Rev 3EU Information 2011/C 73/011

As far as we know, products that we deliver to our customers do not contain any materials with components of animal origin, or are made with them.

To the best of our knowledge, no aids, auxiliary materials or manufacturing materials with components of animal origin are used in the manufacturing process for these products.

In the event of any traces that may be present in the raw materials, these meet the criteria of the “strict procedures” according to EMA / 410/01 Rev. 3, Section 6.4 during manufacture. or Regulation 1774/2002 / EC, Annex VI, Chapter III.

Substances produced under these conditions no longer pose a TSE risk.

We thank you for your trust and look forward to further cooperation.
